MALIK LIP & ASSOCIATES

Malik Lip & Associates Sdn Bhd (MLA), incorporated in April 1983, is a partnership formed between LAr. Haji Nik Malik Nik Zainal Abidin and LAr. Michael Lip Yoke Cheong. Both qualified as Architects in Australia and both hold Master of Arts in Landscape Architecture from Sheffield University, England. In the more than 40 years of its existence, MLA have grown from a 2-man set up operating out of a private residence to a 50 strong team comprising mainly of landscape architects & designers, technical and management personnel with its own building cum office located in Taman Tun Dr. Ismail, Kuala Lumpur.

MLA was formed at a time when the landscape industry in Malaysia was at an infant stage of development and the developers, public and local councils did not recognize the need to enhance their property assets. This did not deter MLA to persevere as they passionately believe the importance of having an enhanced quality of life through good landscaping. Their persistence has paid off and today projects whether residential, resorts, open spaces, commercial or institutional are being differentiated and marketed on the quality of their landscapes. MLA’s high quality standards and meticulous works has produced outstanding projects many of which won local and international awards.

DESIGN PHILOSOPHY

- Creating Timelessness in Landscape Design
- Preserving the Natural Heritage

The importance of Landscape Architecture cannot be underestimated as it requires proper understanding of the surroundings, natural resources, its potentials and above all, sensitivity to ensure the perpetuation of the natural heritage and identity.

Malik Lip & Associates Sdn Bhd endeavours to be involved in creating design identity which is linked irrevocably to the surrounding environment. Culture and tradition have become the major forces in propelling the company forward to meet new challenges while sustaining the landscape identities and environmental well being. The company embodies a resounding ambition to make a difference in people’s lives. Through a sensitive expression of the influential arts of culture and tradition and a keen perception of humanistic concerns, and moreover by playing a sensitive but active role in the ecology movement, the company strives to help make the world a better place to live in.
